

PUBLIC NOTICE NO. MT-07-11

June 19, 2007

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to state the Department's intention to issue a wastewater discharge permit to the facility listed in this notice. This permit is issued by the Department under the authority of 75-5-402, Montana Code Annotated (MCA); the Administrative Rules of Montana (ARM) 17.30.1301 et seq., Montana Pollutant Discharge Elimination System (MPDES); and Sections 402 and 303 of the Federal Clean Water Act. The Water Protection Bureau has prepared a draft permit for the facility listed below. Copies of the draft permit, statement of basis, and environmental assessment are available upon request from the Water Protection Bureau or on the Department's website www.deq.mt.gov.

APPLICANT INFORMATION

APPLICANT:	Seaboard Foods LP
FACILITY NAME:	Daily's Premium Meats-Missoula
FACILITY LOCATION:	Section 17, Township 13 North, Range 19 West, Missoula County
RECEIVING WATER:	Outfall 001: Clark Fork River
PERMIT NUMBER:	MT0000094

This is a renewal of MPDES MT0000094 for the Seaboard Foods LP Daily's Premium Meats-Missoula facility discharge of once-through non-contact cooling water with no chemical additives, to the Clark Fork River. Permit limitations have been developed to ensure the discharge does not cause or contribute to an exceedence of Montana water quality standards. Effluent monitoring requirements will assess compliance with Montana water quality standards.

On September 21, 2000, a U.S. District Judge issued an order stating that until all necessary total maximum daily loads under Section 303(d) of the Clean Water Act are established for a particular water quality limited segment, the State is not to issue any new permits or increase permitted discharges under the MPDES program. The order was issued in the lawsuit Friends of the Wild Swan v. U.S. EPA, et al., CA 97-35-M-DWM, District of Montana, Missoula Division. The DEQ

finds that the issuance of this proposed permit does not conflict with the order because the permit does not authorize any new or increased discharge of pollutants.
